TUESDAY, OCTOBER 8

Boom the County Fair.

SUMMIT County's Fair opens in earnest tomorrow. Secretary Hale predicts that it will be the best fair in the history of the county. Akron people will do all they can to make it a success.

With the Elks' Fair, Akron's Free Carnival and Street Fair, Roosevelt day, the County Fair and a visit from President McKinley, Akron has been pretty well supplied with attractions this season.

PRESIDENT MCKINLEY will be the guest of Akron people for a short time Thursday. The people of all parties will unite in paying him the respect his high office deserves, but leave politics out of it.

"The last thing I said to Otis when I left Manila," says Admiral Dewey, "was this: 'You're trying to do too much. You're working yourself to death.' Oh, that same Dewey would arise to tell Colonel Sanford and Senator Alexander to put on the brakes! They, like Otis, are working themselves to death—and all for the benefit of the Hanna ticket."

HONORS have been heaped so heavily upon the Hon. W. F. Crispin by the local prohibition party that the DEMOCRAT doesn't see how he can carry them around. In the current month's edition of the official organ of the party, under the head of "Prohibition Roster," we find the following:

- W. F. Crispin, Chairman 19th District.
 - W. F. Crispin, Acting Secretary 19th District.
 - W. F. Crispin, Acting Chmn. Summit county.
 - W. F. Crispin, Secretary Summit county.
 - W. F. Crispin, Sec. Summit Co. Exec. Com.
- In addition to all this Rev. Crispin finds time to follow the highly diversified callings of lecturer, book agent, author, poet and editor, and he is good at each. Doesn't this record, by comparison, rather leave our vain-glorious friend Mark Hanna hanging in the air?

The plant of the Akron Salt Company, which for several years has furnished employment to a large number of men, has been purchased by the Salt Trust and will be closed down. It is announced that an immense sum had to be paid to get possession of the Akron plant, but this makes little difference to the Trust. In time the people who buy salt will have to pay for the enormous expense of purchasing this plant that it may rust and decay in idleness. After the Trust succeeds in restricting the production of salt by closing down many of the plants engaged in its manufacture, and throwing hundreds of men out of work, it will be able to fix its own price upon this particular necessary of life, and the people will have to pay it. In this case there is no pretense at reducing the cost of production to benefit the people. Private monopoly never makes such a pretense unless it intends to deceive voters.

"THERE never was a time when the American dollar would purchase more than it does today," said a preacher who was lecturing upon an economic subject at Cleveland Sunday night. A great deal depends upon who does the purchasing. For instance, it is what our gold standard friends call a "100-cent dollar" when used by the trusts to buy labor or the products of the farm, but when laborers or farmers use it to buy products of the trusts it takes a sudden drop to the level of a "50-cent dollar." The dollar is not so much at fault, however, as the system that has made it necessary for manufacturers to organize trusts to save themselves from being driven to the wall. The trusts can keep prices from falling under the price depressing operation of the gold standard by limiting the supply of manufactured articles, but laboring men and farmers have no such remedy. The value of their products and their farms and property is fixed by the supply of primary money which measures values. Unlike the trusts, they can interpose no artificial barrier between their products and prop-

erty and the downward trend of prices caused by legislation which destroyed one-half of the nation's supply of primary money.

"LET DEWEY TAKE A REST."

Under the above caption the New York Journal has the following: "Would it not be well after this celebration is over and after the 'captains and the kings depart' to let Dewey alone for a brief spell, in order that he may brush the powder smoke from his eyes and breathe again the odors of the morning glories around his old Vermont home?" This grabbing at the hero of Manila for pecuniary and political purposes is nothing short of indecent. "Chicago walls aloud that if Dewey does not attend her festival it will prove a failure."

"Boston wants him on October 9, with a lurking idea of using him to further an anti-expansion boom. 'Most indecent of all is Mark Hanna, who wants Admiral Dewey to accompany President McKinley as far west as San Francisco on a political stumping tour. 'The attempted dragging of Dewey into McKinley politics before he has fairly got rid of his sea legs is disgraceful. 'The financial statesman of Ohio opposed the Spanish war and forced McKinley to oppose it until the people threatened to run away with the war chariot. Then Hanna seized the tailboard and lifted McKinley in. 'Now that Dewey is being honored throughout the country, Hanna again leads McKinley forward and tries to prevail upon Dewey to become a train-platform exhibit for party purposes. 'Dewey deserves a rest. Let him take it.'"

HIGH PRICES FOR THE TRUSTS.

Three years ago the DEMOCRAT was bewailing and complaining because the prices of everything were so low, claiming that not until they advanced (under bimetalism) would prosperity prevail. The fact that prices have been raised without that (meaning that they have been raised by the trusts) has caused the DEMOCRAT to take another tack.—Beacon.

A newspaper that in its own columns confesses itself to be too stupid to appreciate the economic difference between a natural increase of prices affecting the property, labor and products of all the people, and a sporadic and artificial increase of prices manipulated by the trusts, for the trusts, and confined exclusively to the products of the trusts, is hardly worth wasting printer's ink upon.

Perhaps a little object lesson right at home will serve to show our neighbor how prices "have been raised" under the reign of the trusts. Last night the Beacon told its readers that the Salt Trust has bought the Akron Salt Works and that "the plant will be closed down and the manufacture of salt discontinued." The closing down of the Akron plant, in conjunction with other plants elsewhere, is intended to help the Trust restrict the production of salt.

Being thus in a position to take advantage of the necessities of the people, a position into which all trusts attempt to work themselves by obtaining a monopoly of trade in a certain article of commerce, the Salt Trust will proceed to raise the price upon the people.

Whether this particular trust shall succeed or fail in its endeavor is quite beside the question. But the fact remains, and it should be clear even to the benighted Beacon, that this is not the way bi-metalists promised to raise prices, four years ago.

HIS MAJESTY

The Mikado Will Be in Town This Month.

The Street Fair is now a thing of the past. Roosevelt has been here and gone, and soon the County fair will also be over. Then the Mikado will be in Akron on October 19. This is rather surprising news, but it's true, which is more than can be said of the fad of the North Pole. Col. Bloomfield as financial secretary of the hospital is responsible for this and he deserves support in this effort to give pleasure and profit. Mr. Geo. F. Knowles, who has produced "Mikado" in several nearby towns most successfully, will manage the entertainment. He brings with him very fine costumes and beautiful scenery. The musical people are delighted with the idea and enough local talent has been secured to render the "Mikado" one of the finest things ever seen here. Thursday evening, Oct. 19, is the date fixed upon and by that time the town will be so thoroughly Japanned that our grocers won't be able to sell anything but rice and tea.

Dr. Gies, chiropodist, of Youngstown, will remain at the Hotel Buchtel until tomorrow noon. Call or telephone him.

NO CHANGE

Will Be Made In Working System of C., A. & C.

A local official of the C., A. & C. read Monday to a reporter for the DEMOCRAT that it was his opinion that no formal change of the C., A. & C. business to the Pennsylvania company would ever be made. "We are now working in accordance with the system of that company and no change is necessary," continued the official.

Testifies to the Good Qualities of Chamberlain's Cough Remedy.

On the 10th of December, 1897, Rev. S. A. Donahoe, pastor M. E. Church, South, Pt. Pleasant, W. Va., contracted a severe cold which was attended from the beginning by violent coughing. He says: "After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by all druggists, E. Steinbacher & Co., wholesale agents.

What a Little Faith Did FOR MRS. ROCKWELL.

[LETTER TO MRS. PINEHAM NO. 6,884]
"I was a great sufferer from female weakness and had no strength. It was impossible for me to attend to my household duties. I had tried everything and many doctors, but found no relief. 'My sister advised me to try Lydia E. Pinkham's Vegetable Compound, which I did; before using all of one bottle I felt better. I kept on with it and to my great surprise I am cured. All who suffer from female complaints should give it a trial.'—Mrs. ROCKWELL, 1309 S. DIVISION ST., GRAND RAPIDS, MICH.
From a Grateful Newark Woman.
"When I wrote to you I was very sick, had not been well for two years. The doctors did not seem to help me, and one said I could not live three months. I had womb trouble, falling, ulcers, kidney and bladder trouble. There seemed to be such a drawing and burning pain in my bowels that I could not rest anywhere. After using Lydia E. Pinkham's Vegetable Compound and Sanative Wash and following your advice, I feel well again and stronger than ever. My bowels feel as if they had been made over new. With many thanks for your help, I remain, L. G., 74 ANN ST., NEWARK, N. J."

TWO TEAMS

Will Parade Streets

Before Going to Buchtel Field Saturday.

Two Hours Fast Practice Last Night.

Candidates For Halfback Are Numerous.

Horse Talk—Challenge Unanswered—Sporting News.

The foot ball season will be opened Saturday at the Buchtel college grounds.

The Akrons will meet the Cleveland Athletic club, which is composed of old college men. It is said to be exceptionally strong.

Preceding the game there will be a parade on the down town streets. The two teams will be headed by a band, probably the K. O. T. M. The game will be called promptly at 8 o'clock. The grounds are in excellent condition. Fences have been built along the side lines. Four of the flag poles used during the street fair, have been placed in position for goal posts. With good weather, an immense crowd will be out for the opening game. The line-up of the teams will be announced in a few days.

Candidates Tried.

Twenty candidates for positions on the Akron eleven reported for practice Monday night. Captain Hutchins drilled the men in signals for two hours. They were kept going at a lively pace. Although they have had but two nights' work, much improvement is already noticeable. There was considerable fumbling of the ball but the men got into the plays faster than the preceding night. Another candidate for halfback was out. McBurney, who played that position on the North Ends last year. He caught on rapidly. He is a fast runner and a sure heady player. Doc Smith and Stair were also tried. Both show up well in practice. Price and Moore were worked at quarterback. Cooper, Chase, Peterson and "Old Hutch" took turns as tackles. Kauff and Woolridge were in the line as guards. Kapp, Evans and Rockwell will try for ends. It is probable there will be a number of other candidates for these positions.

St. John of Barberton, and Dietz, last year's halfback on the North Ends, have not reported. Both have signified their intention of getting into the game. The absence of Carter is regretted. It was hoped that he would be out for practice. His experience and assistance would be very valuable at this time. The candidates will practice Wednesday, Thursday and Friday nights. The game Saturday will be a hard one and it is necessary that the team have as much work as possible before that time.

Temper Won Cup.

Temper won the cup offered by the Gentlemen's Driving club of Cleveland, for the fastest mile to wagon made during the season of 1899. Her mile in 2:06½ equaled the world's record. Monday she tried again over the Glenville track to lower her mark. The conditions were unfavorable and the best she could do was a mile in 2:14½.

No Answer.

Art Simms has not received any answer to his challenge for a match with any 125 pound man in the state. Ruhl is ready to back him for any sum up to \$500.

Akron Entries.

Akron horses are entered in five of the races at Fountain Park this week. They will start as follows: Wednesday, 2:26 trot, Perry, Lura Backus, Freebooter. Thursday, 2:23 trot, Lura Backus, Freebooter. 2:24 pace, Wardetta. Friday, 2:35 trot, Grace Elyria, Perry. 2:30 pace, Lucy B. Chandler.

Class Games.

Arrangements are being made for a series of games between teams made up of Freshmen and upper class men at Buchtel college. The Preps are doing considerable work and will probably figure in these contests.

Second A. H. S. Team Challenged.

The Spicetown foot ball team challenges the second team of the A. H. S. for a foot ball game. All members of the Spicetown team are requested to report for practice tonight.

Bowing News.

The A team of the Kirkwood club defeated the B team Monday night in two games. They won the first game by 153 pins and the second by 89; a total for both games of 222.

The E and F teams will bowl two games Wednesday night.

Malzoum Entered.

There is no argument so good as an absolute, plain, truthful statement of fact. There is nothing so interesting as fact. In the true happenings of the everyday life of every-day people are materials for most thrilling novels. There are every day stories of heroism, suffering and the final triumph of good over evil—of happiness finally crowning endeavor. Here is a case in point:

In the county of Escambia in Alabama is the little town of Plomaton and there lives Mrs. Mollie Grimes. She was a good wife and mother but several years ago she found her health slipping away from her. She realized that this meant the inevitable nervousness and irritability that would surely lose for her the affection of her children and husband, and that as her health declined distress and misery would appear in her home. She was filled with the loving motherly instinct, but two miscarriages in succession almost broke her heart. She had almost lost hope when the clouds rolled away and the light of health and happiness returned.

She tells her story in these words: "I was almost heart-broken to think I could not raise any more children and had to suffer as I did. I had lost two children by miscarriages and I fully expected to lose another when, in August 1897, I learned of Dr. Pierce's Favorite Prescription and began taking it. I took it until after baby was born in November. With my other children I had suffered everything that flesh could suffer but this time I was in perfect health and had a very easy time. I was in labor only a short time. I cannot praise Dr. Pierce's medicine enough for I believe they certainly saved my baby's life and maybe my own life as well. I took the 'Favorite Prescription' and also the 'Pleasant Pellets.' The 'Pleasant Pellets' act like a charm."

Does Coffee Agree with You?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains.
